

General manager Alan Techner and showroom assistant Krystal Chung gather in the showroom of Awning Design in Windsor.

Trust the experts at Awning Design

These days, home improvements have to be more than just a luxury. They have to be smart, too. Partners Mark Pedersen and Alan Techner's customers at any of their four Awning Design locations know that retractable awnings are both.

By reducing or eliminating the amount of sun beating down on a home, awnings save a homeowner money in energy costs. But, Techner says, they also provide more. "People really do feel like they've added a room to their home," he said. "As much as we like to spend time outdoors, heat or light rain will drive you inside. By resolving sun problems on a deck or patio, awnings provide a homeowner with more useable space in their backyard."

Awning Design is a full-service awning company that focuses on customer service. In addition to being New Jersey's largest retailer of Durasol brand awnings, the company also offers a broad selection of premium-quality, factory-warranted awnings at different price points from Nulmage, Aristocrat and SunBlok, too.

Deck and patio canopies, cabanas and awnings for windows and doors are also available in a variety of styles, fabrics and frame construction.

Full-size awning samples that customers can see and operate are on display in Awning Design's showrooms. Customers can also choose from hundreds of 100 percent solution-dyed fabrics from Sunbrella, Dickson and Sattler, or powder coated aluminum. Free, on-site solar evaluations are

offered during the day, evenings and on weekends.

Once you make your choice, your awning will be installed by Awning Design's highly experienced installers who will also demonstrate the proper use of your awning and give advice for its care.

At Awning Design, superior customer service doesn't end with the installation of your awning. Service programs including seasonal put-up and take-downs of canopy awnings, winter covers for retractable awnings and any necessary adjustments of your awning are offered for your convenience.

Awning Design can also recover damaged or worn-out awnings and replace frames or broken components. A free, on-site evaluation will be conducted at your convenience to determine the best course of action for your awning problem.

If you've been considering improving your quality of life by adding a retractable awning, or any awnings, to your home, you won't want to miss Awning Design's Open House taking place Saturday and Sunday, March 28 and 29 at the Windsor-Robbinsville location.

"In addition to our own discounts, the Open House will be a good opportunity to take advantage of factory rebates," said Techner. Light refreshments will be served during the event from 10 a.m. to 4 p.m. Saturday and 11 a.m. to 4 p.m. Sunday.

Awning Design's Windsor-Robbinsville location is at 1392 Route 130 South, two miles south of Route 571. The Freehold location is at 638 Route 9 South. There are also locations in Middletown and Wall Township. Call (609) 223-2020 or visit www.awningdesign.net for more information.
